

## 3<sup>rd</sup> Ward Report

### December 10, 2007

1. I reappointed Mr. Ron McCain to the Cultural Affairs Panel. Thank You!
2. I requested Council to consider amending the **Rules of Council** to avoid excluding the public when ordinances were added to the Legislative Agenda and passed with one (1) reading by suspending the three (3) reading rule. I documented this concern to Council previously and requested their support to amend the Rules of Council.
3. I asked Council to consider requesting a response from the Mayor and Auditor to the Management Letter from Caudill & Associates, CPA's documenting Noncompliance Citations. An example, the City cell phone and credit card usage need guidelines implemented into a policy to protect the City from unnecessary expenses.
4. I support and appreciate to efforts of the news media to inform the public concerning the issues affecting the City. I thank WPAY radio for their efforts to broadcast the Council Meetings live. I support and acknowledge the need for the rebroadcasting these Council Meetings in their entirety at various times to encourage our public to be informed and involved in their local government. I request Council to consider rebroadcasting Council Meetings which may also be used to expedite safety messages from the various City Departments.
5. Thanks to everyone attending or speaking tonight and listening on the radio. THANK YOU!!!!
