Re: Alley Repair Requested at 1929 Hutchins Street

I received a report of constant standing smelly dirty water located in the alley behind 1929 Hutchins Street. I inspected the alley and enclosed photographs. I found water pooled in the center of the alley with a raised concrete pavement obstructing the normal water flow directly south of this residence in the alley.

Please inspect and repair the alley as needed to avoid health issues associated with mosquitoes and odor.

If you should have any questions contact me.

Respectfully,

Bob Mollette, 3rd Ward Advocate and Representative on City Council
